

COMPACTO® BASIC M

Compact Seat with
Mechanical Suspension

GRAMMER

TECHNICAL DATA

COMPACTO® BASIC M

Despite having a mechanical suspension, the Compacto Basic M also boasts plenty of comfort and convenience. The seat can be set to three different heights using an easy-to-turn knob. It is adjusted to the user's weight by moving a lever in front until the marking in a plainly visible readout lines up with the selected seat height. This ensures that enough suspension travel will always be available.
